

PERFORMANCE

- // GROUND BREAKING
- // INDUSTRY LEADING
- // FUTURE PROOF

The **PrimoFold** range incorporates high insulation polyurethane foam (PUR) as an innovative thermal barrier - preventing the cold from getting in and the heat from getting out.

Already used for many years in the construction industry to provide insulation, PUR is fully recyclable, safe to handle and gives ultra-high thermal performance.

This ground-breaking patent pending use of PUR as a thermal barrier, means that **PrimoFold** doors exceed current and will meet future Building Regulations. In fact, our doors can give U-values as low as **0.93 W/m²K**, when calculated as a commercial CEN standard door and are, of course, fully tested to PAS 24 - 2012, which complies with SBD security standards.

In addition, they are weather tested to BS6375 Parts 1, 2 and 3.

DESIGN + INNOVATION

- // PRACTICAL
- // ELEGANT
- // FLEXIBLE

PrimoFold is available in leaf sizes up to 2616mm high x 1000mm wide with robust roller and hinge design capable of accommodating leaf weights of up to 100kg.

Available in low profile rebated threshold for easy uninterrupted access, tested to PAS 24 - 2012

PrimoFold is precision-engineered to effortlessly glide and features fully adjustable hinge stiles and lock keeps for easy on-site adjustment, and intermediate hinges with 1mm adjustment, making for trouble-free installation.

A unique jointing method of head and cill allows thermal breaks to always line through with the door, for added thermal efficiency.

PrimoFold provides a simple and cost effective way to future-proof your customer's building.

STYLE + CHOICE

- // CUSTOMISABLE
- // ACCESSORY CHOICE
- // GLAZING OPTIONS

Designed with style and elegance in mind, **PrimoFold** features curved sections, flush gaskets and shaped beads, limiting overall frame sightline to just 123mm between leaves.

Door frames are available from stock in standard grey, white and dual colour grey/white. Alternative single and dual colour finishes are also available from a full range of standard RAL colours or, if you have a specific colour in mind, we can colour match for a bespoke solution. If you prefer an alternative look, we can supply **PrimoFold** doors with a metallic, textured or anodised finish.

Handles are available in black and silver finish.

Present your customers with truly unique style options and gain massive advantages over your competition.
